Prof. Vasily Sukhorukov  
President of INTRON PLUS  
Electrodnaya Str. 11  
Moscow 111524  
Russia

Dear Professor Shukhorukov:

Our company LA LINEA VERTICAL is a private industrial company specialized in rope access techniques apply to industrial branches, with special solutions for non accessible inspections. We mainly work for the petrochemical industry in Spain, UK, Italy and Ireland.

Since year 2009 we have been inspecting flare stacks guy ropes with the INTROS equipments (20-40 Magnetic head), and the results are always brilliant. I strongly recommend working with INTROS equipments.

With kind regards,

Carlos Martín Díaz de Espada  
Mechanical Engineer  
Technical Director LLV
